

Approved applicators of
Descol Pulastic Sports Flooring

Install a Pulastic sports floor with confidence

NZ SPECIALISED COATINGS

NZ Specialised Coatings Ltd is the approved applicator for Descol Pulastic sports surfaces. Operating throughout the entire country, NZ Specialised Coatings will work with you to ensure you select the right solution that matches both budget & ultimate performance.

NZ Specialised Coatings Ltd is one of New Zealand's largest installer of resin-flooring systems. With our extensive knowledge and experience in specialist flooring solutions, you can be confident that your new sports floor will not only look great on day one, but will continue to do so for many years to come.

Whether it is 100m² or 10,000m² of flooring, NZ Specialised Coatings together with Sika and Descol will always support our customers with the complete package. Choosing the best sports flooring solution requires a combination of premium products, top quality installation and excellent post-installation support.

You know that you can always install a Pulastic sports floor with confidence.

DESCOL PULASTIC

Descol is the market leader in sports flooring systems, with over 45 years experience in developing and refining sports floors and more than 25 million square metres installed worldwide.

Descol's shock-absorbing Pulastic sports floor systems combine the safest surface for children's play, with the outstanding sports performance required by top athletes.

Most sports facilities are multifunctional. They not only have to cater for a wide range of sports, but are also used for non-sporting activities such as assemblies, shows, meetings and exhibitions. There is a wide range of Pulastic flooring options available. Let us help you select the perfect floor to suit your specific requirements.

Descol is part of the global Sika group and is therefore directly represented in New Zealand by Sika (NZ) Ltd. Install a Descol Pulastic sports floor with the confidence of knowing that you are dealing directly with the product manufacturer, rather than just an agent.
